MORE ABOUT ME

Enthusiastic Computer Science student with 8 years of experience in phone maintenance, skilled in coding and problem-solving. Adept at diagnosing and repairing a variety of smartphones and mobile devices, while maintaining up-to-date knowledge of emerging technologies. Strong academic background with hands-on experience in programming languages such as Java, Python, C++, and JavaScript. Seeking a software development position to apply my technical expertise, contribute to an organization's success, and pursue professional growth.
